## HAIR COLOUR REMOVER

### INSTRUCTIONS

#### WHAT IS INCLUDED IN THE PROCESS

#### RECOMMENDED EXTRAS

- CLING FILM
- HAIR DRYER
- TOWEL
- PLASTIC COMB

HAIR LONGER THAN SHOULDER LENGTH OR VERY THICK HAIR MAY REQUIRE 2 PACKS

**IMPORTANT:** Please fully read the instruction leaflet before use. We highly recommend you refer to our video guide via the QR code below.

#### 1. MIXING

Shake bottle A well before use. Pour entire contents of bottle A into bottle B. **Shake vigorously** for 60 seconds to ensure the liquids are fully mixed.

#### 2. APPLICATION

**Pre-warm hair with a hairdryer prior to application.** Apply the mixed hair colour remover onto clean dry hair as you would a conditioner, section hair and start from underneath from roots to ends. Massage the entire contents of the bottle into hair ensuring even distribution and full coverage. Use a comb to brush through and ensure even distribution. Your hair should be completely saturated.

#### 3. PROCESSING

**Leave on hair to process for 60 minutes.** We strongly recommend wrapping the hair in cling film, warming with a hair dryer and wrapping in a towel. It is important to keep the hair warm throughout the 60 minute processing time by regular use of a hair dryer **every 15 minutes.**

#### 4. FIRST RINSE

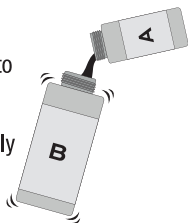

Rinse product off with warm water for **5 minutes** for short hair and **10 minutes** for long, thick hair.

#### 5. BUFFERING AND SECOND RINSE

Apply **half** of bottle C and massage to lather like a shampoo for 1 minute. **Now rinse with warm water for 5 minutes.**

#### 6. FINAL BUFFER AND RINSE

Apply the remainder of bottle C, massage to lather like a shampoo for 1 minute. **Now rinse with warm water for a further 5 minutes.** After all traces of buffer have been successfully rinsed from the hair you may conclude and dry.

**We recommend finishing with a conditioner as colourants dry the hair.**

## HAIR COLOUR REMOVER

### CAUTION

- Conduct a Skin Tolerance Test 24 hours before use
- We **STRONGLY** recommend you conduct a strand test
- Not suitable for children under 16
- Not suitable for Henna treated or Afro textured hair
- Please see your doctor before use if you are pregnant
- Protect clothing and surrounding furniture
- Remove or protect jewellery
- If using tint bowls do not use metal bowls or combs, use only plastic accessories
- Use protective gloves provided
- Use two packs for hair longer than shoulder length
- Do not apply on irritated or broken skin
- Do not apply if you have a scalp condition
- Do not use on restorers containing metallic salts
- Do not use on brows or lashes
- If product gets in your eyes wash out with cold water immediately and seek medical advice
- Do not exceed process times
- Keep out of reach of children
- Revolution hair colour remover does not remove fashion colours e.g. blue, purple and green etc.

#### Skin Tolerance Test

Make up a sample of product, follow the directions for use, and apply it to a small area of skin on your inner arm. Ensure that you rinse it off thoroughly after the recommended time. If after 24 hours there is no adverse reaction proceed with full application. If you experience any tingling or burning sensation during use, remove the product immediately and rinse thoroughly with water. If this sensation persists, seek medical advice.

#### Hair Strand Test

View your potential results before you apply the entire contents. If you wish to preview results (prior to full head application) WE **STRONGLY** recommend you conduct a strand test using a small section of hair no more than a centimetre in width. Mix a teaspoon of bottle A into a plastic bowl with a teaspoon of bottle B and mix with a plastic spoon, apply with a cotton bud or tissue to segregated hair. Fully saturate and leave to develop 60 minutes. Rinse for five minutes, dry and check results. **DO NOT APPLY PART C BUFFER** to hair when strand testing as it could affect results of subsequent whole head application.
